

### In the Claims

1-9. cancelled.

10. (previously presented) A floor carpet installation system, comprising:  
a carpet having a nap side forming a usable surface thereof and having a backside formed of a carpet loopless material opposite said nap side;  
a floor loopless material fixable to a floor surface; and  
a micro-adhesive closing element having opposite carpet and floor surfaces, each of said surfaces having protruding interlocking elements, said elements on said carpet and floor surfaces interlocking with said carpet and floor loopless materials, respectively, said interlocking elements being configured as fingers with thicknesses at free ends thereof, said interlocking elements on said carpet surface having at least one of different shapes, different dimensions and different relative adjacent spacings relative to said interlocking elements on said floor surface.

11. (previously presented) A floor carpet installation system according to claim 10 wherein  
said thicknesses of said interlocking elements comprise mushroom-shaped heads.

12. (previously presented) A floor carpet installation system according to claim 10 wherein  
said thicknesses of said interlocking elements comprise plate-shaped heads.

13. (previously presented) A floor carpet installation system according to claim 11 wherein

said heads have concave depressions on tops thereof.

14. (previously presented) A floor carpet installation system according to claim 12 wherein

said heads have concave depressions on tops thereof.

15. (previously presented) A floor carpet installation system according to claim 13 wherein

said depressions in said heads on said interlocking elements on at least one of said surfaces receives adhesive to provide an additional connection with one of said carpet loopless material and said floor loopless material.

16. (previously presented) A floor carpet installation system according to claim 14 wherein

said depressions in said heads on said interlocking elements on at least one of said surfaces receives adhesive to provide an additional connection with one of said carpet loopless material and said floor loopless material.

17. (previously presented) A floor carpet installation system according to claim 15 wherein

said adhesive comprises an acrylate base.

18. (previously presented) A floor carpet installation system according to claim 16  
wherein

said adhesive comprises an acrylate base.

19. (previously presented) A floor carpet installation system according to claim 10  
wherein

said loopless materials comprise felt.

20. (previously presented) A floor carpet installation system according to claim 10  
wherein

said loopless materials comprise fleece.

21. (previously presented) A floor carpet installation system according to claim 10  
wherein

said loopless materials comprise a loose leno weave.

22. (previously presented) A floor carpet installation system according to claim 10  
wherein

said loopless materials comprise a flat knit.

23. (previously presented) A floor carpet installation system according to claim 10  
wherein

said loopless materials comprise non-woven textile.

24. (previously presented) A floor carpet installation system according to claim 23  
wherein

said non-woven textile is synthetic material.

25. (previously presented) A floor carpet installation system according to claim 23  
wherein

said non-woven textile is needle punched felt.

26 ~~27~~. (currently amended) A floor carpet installation system according to claim 10  
wherein

said floor loopless material comprises footstep-sound-absorbing properties.
